

ASIFUL ALAM SAMI

Entry-Level Software Developer | Python | Django | React

Moghbazar, Dhaka | 01827772178 / 01948803257 | asifulalamsami@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate at East West University with a 3.99/4.00 CGPA and consistent Dean's List recognition. Hands-on project experience in Python, Django, Django REST Framework, React, and machine learning (LSTM, TensorFlow, Scikit-Learn). Built full-stack applications like spanning stock-price prediction, e-commerce, and music streaming and actively expanding expertise in DevOps and AI/ML engineering.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL, HTML, CSS

Backend: Django, Django REST Framework, FastAPI

Frontend: React.js, React Router, Redux, Bootstrap, Tailwind CSS, Vite, Django Templates

Databases: SQLite, MySQL, PostgreSQL

AI / ML & Data: TensorFlow, Keras, PyTorch, Scikit-Learn, Pandas, NumPy, Matplotlib, LSTM, Time Series Forecasting, yFinance

Tools: Git, GitHub, Postman, VS Code, Canva

PROJECTS

Stock Market Prediction | *Python · Django REST Framework · React · TensorFlow/Keras · Scikit-Learn · LSTM*

GitHub: <https://github.com/shadows12-star/Stock-Market-Prediction.git>

- Built a full-stack web application that predicts stock prices using a deep learning LSTM model.
- Developed a DRF backend and React dashboard for stock search, historical analysis, moving averages, predictions, and model evaluation metrics.
- Used Pandas, NumPy, Matplotlib, yFinance, MinMaxScaler, and time-series forecasting for data processing and model workflow.

Premium E-Commerce Site | *Django · SQLite · HTML · CSS · Bootstrap · SSLCommerz · SMTP/Gmail*

GitHub: <https://github.com/shadows12-star/Premium-E-Commerce.git>

- Built a Django e-commerce application with product browsing, category filtering, cart management, accounts, orders, and reviews.
- Implemented product gallery images, Django Forms, Crispy Forms, custom user model, email configuration, and SSLCommerz payment integration.

Spotify Clone | *Django · Python · SQLite · Django Templates · HTML*

GitHub: <https://github.com/shadows12-star/Spotify-Clone.git>

- Created a Django music streaming application with authentication, song browsing, search, pagination, playlists, and shuffle/next-song playback logic.
- Managed static and media files for audio/content handling within the Django project structure.

EDUCATION

Bachelor of Science in Computer Science and Engineering — *East West University*

CGPA: 3.99 / 4.00 | Credits Earned: 130 / 140 | Expected Graduation: September 2026

Academic Recognition: Merit Scholarship & Dean's List (multiple semesters)

CERTIFICATIONS

- Full Stack Web Development with Python, Django & React — Ostad, Batch 4 | [View Certificate](#)
- Cyber Security & Ethical Hacking Career Track Program — Ostad, Batch 6 | [View Certificate](#)

ADDITIONAL INFORMATION

Currently Learning: DevOps, AI/ML Engineering
